

# BLACKING CHARGES

**The basics:** The hull is blacked to protect the bottom section of the boat, so specifically the area of the boat that is in the water and just above the water line. The "blacking" process protects the hull from rust, pitting, rubbing (through locks, other boats, banks etc) and generally extends the life of the hull.

## NARROWBOAT BLACKING CHARGES

LENGTH IN FT	TOTAL INC VAT
Up to 50ft	£950 <sup>00</sup>
